Question: Why do we like our parents?

We love our parents. maybe the reason is our genetics and natural sens.

Or because we have seen them since childhood.

Or that they loved us since childhood and made us love them. But anyway, everyone loves their parents.

سطح زبان نویسنده المنتری (E) می باشد، لذا از پیچیدگیهای گرامری برخوردار نیست. ولی نسبتا از لغات مناسبی استفاده کرده است. در قسمت پایین تلاش شده، هم ایرادهای لغوی و گرامری گرفته شود و هم نوشته کمی غنی تر شود. لازم به ذکر است، غنی سازی یک نوشته کاملا سلیقه ایست و هر فردی می تواند بهتر و متفاوت تر از دیگران نوشته ای را غنی کند.

Why do we like our parents?

We love our parents, because it is rooted in our gens and natural feelings toward them, considering that we have seen them since our childhood. Another reason can be the fact that they've loved us since we were born and taught us loving. We love them, because we have seen them since our childhood. We love them, because they loved us since childhood and made us love them. Anyway, everyone loves his parents.
